Identification of Children that are Eligible for URIS Group B Health Care Support

Unified Referral and Intake System (URIS)

The Unified Referral and Intake System (URIS) is a provincial program that assists community programs in providing a safe and supportive environment for children with special health care needs. It is managed by an interdepartmental committee that includes representatives from the Departments of Health, Healthy Living and Seniors, Family Services and Education and Advanced Learning, with input from others with appropriate expertise.

Classification of Health Care Needs

URIS provides a standard means of classifying the complexity of health care needs/interventions and establishes the level of qualification required by staff that supports the child.

- **Group A** - health care procedures that are complex and must be performed by a registered nurse.
- **Group B** - health care needs that can be delegated to non-health-care personnel that are trained and monitored by a registered nurse.

Identifying a child with URIS Group B health care needs

It is the community program's responsibility to identify children that have a URIS Group B health care need(s).

Individual Health Care Plans (IHCP)

An Individual Health Care Plan (IHCP) is completed when the child is eligible for one or more of the following URIS Group B health care needs.

Please indicate (√) all health care needs that apply to your child:

- Anaphylaxis
- Asthma
- Bleeding disorder
- Cardiac condition
- Clean intermittent catheterization
- Diabetes
- Endocrine Conditions
- Gastrostomy care
- Osteogenesis imperfecta
- Ostomy care
- Pre-set oxygen
- Seizure disorder
- Suctioning (oral/nasal)

If you have checked any of the above health care needs, the school will provide you with information on services available from the Unified Referral and Intake System (URIS).

Helpful Tip

If a doctor has not prescribed medication for asthma (i.e. reliever medication) or anaphylaxis (i.e. adrenaline auto-injector), the child is NOT eligible for URIS Group B service. The child must also bring this medication to community program to be eligible for URIS Group B support.
